systems*

*Installation
manual*

*Installation
script*

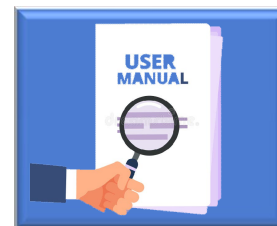

OVERC.O.M.E. webpage

is inside the Official Website

www.prometheusproject.eu

User Manual

Document in PDF format that describes:

✓ system

✓ functionality

✓ methods of use

Available in 3 languages: Italian, French and English

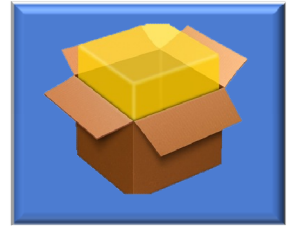

Installation manual

Document in PDF format that describes the steps for installing and configuration Prometheus system U.S.A.R. - C.B.R.N. - S.O.F.I.A. environments, in particular:

- Architecture and operation environment
- Technical Requirements (Server - Client – Security - Network)
- Installation specifications
- Procedure maintenance specifications
- Configuration system, in particular 3cx system for VOIP Call

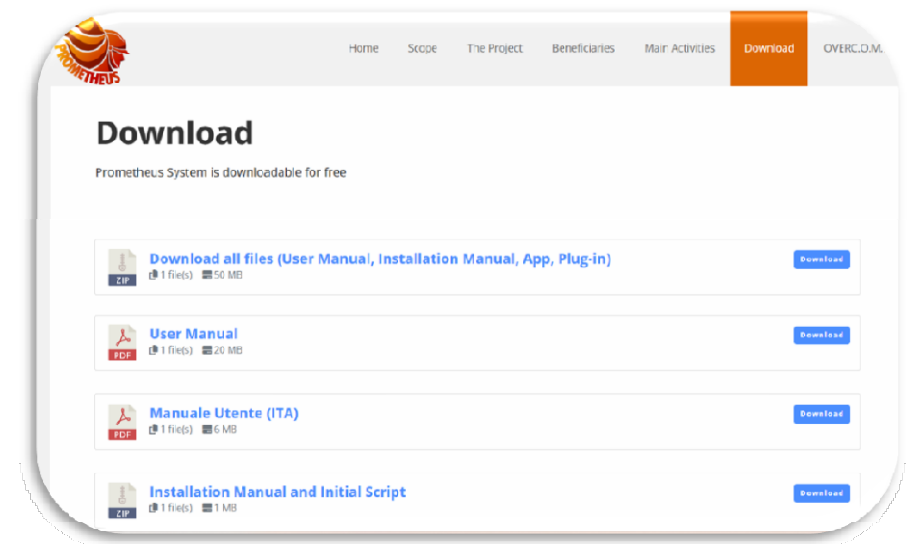

Installation

The Official site contains:

- installation package;
- script and configuration files necessary for a correct installation.

The manual contains all the useful information for dedicated IT staff

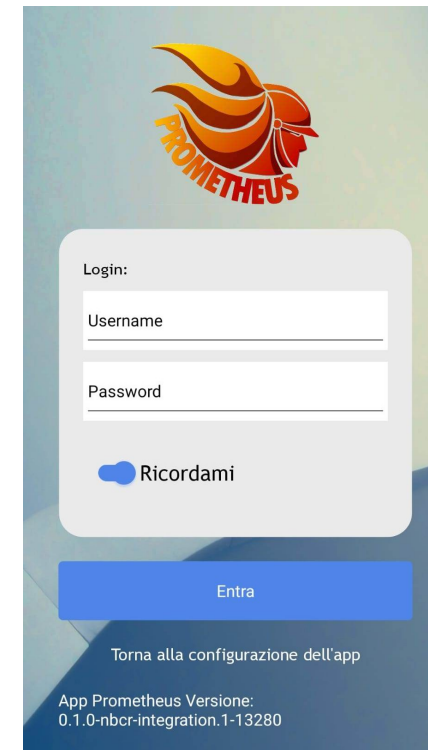

App for mobile systems

The Mobile application is an App for Android and iOS operating systems. For installation follow the instructions in the manual.

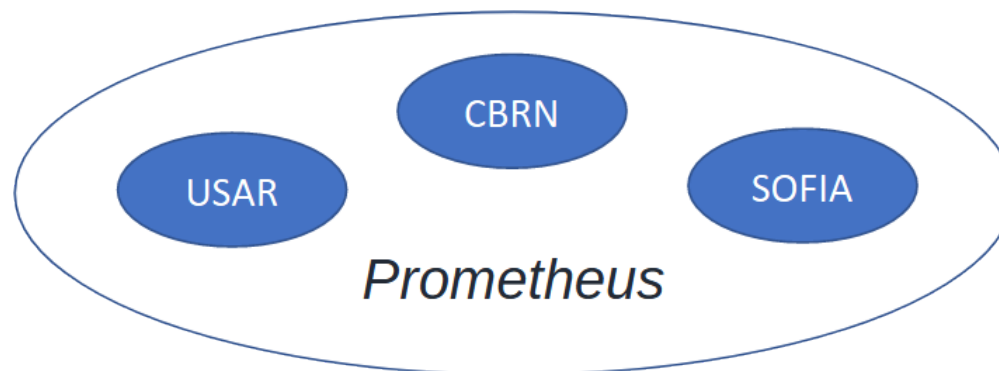

At the end of the project (from the 31st March 2025) the App will be present in the Google App Store and iOS Store

Prometheus System

Promethues system combines the environments: USAR, CBRN and S.O.F.I.A.
in unique software system.

For this reason the installation and configuration is performed only once
for 3 environments and the mobile App is also unique.
