

Monia D'Amico – Project Manager

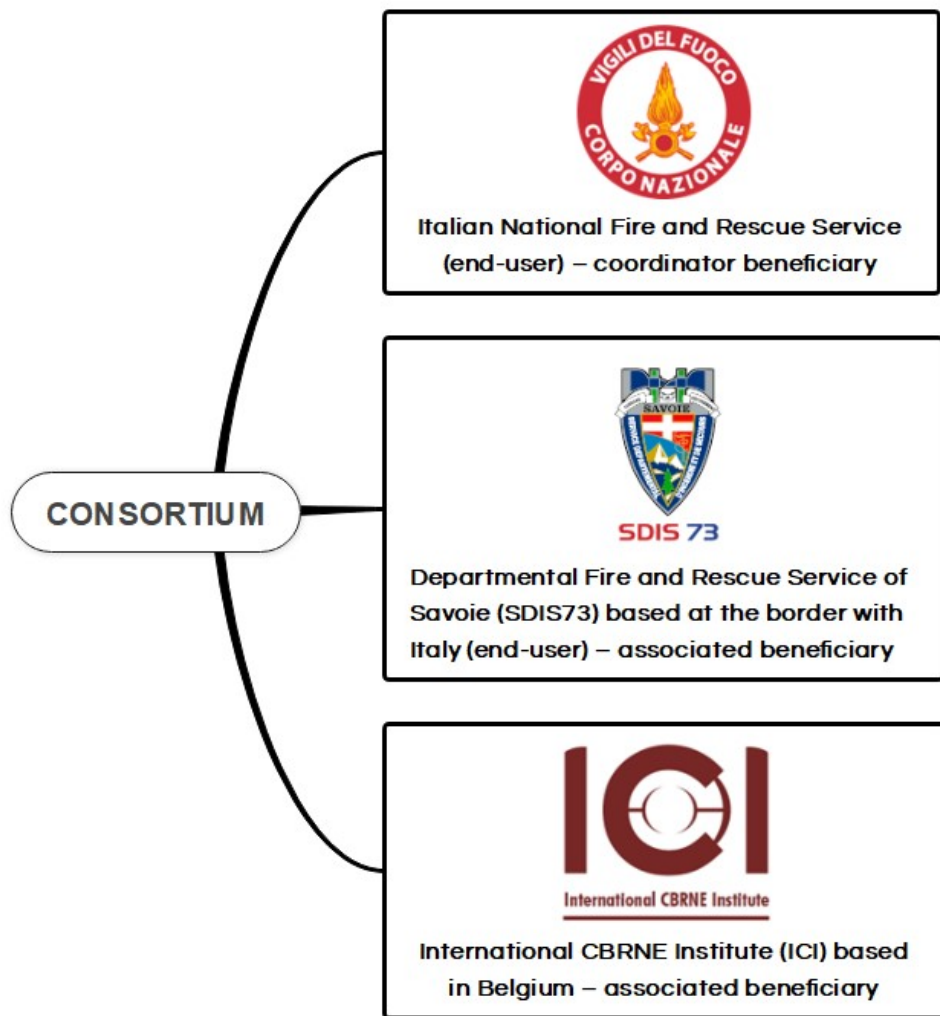

OVERC.O.M.E. Project

(Cross-border cOoperation in Managing Emergency)

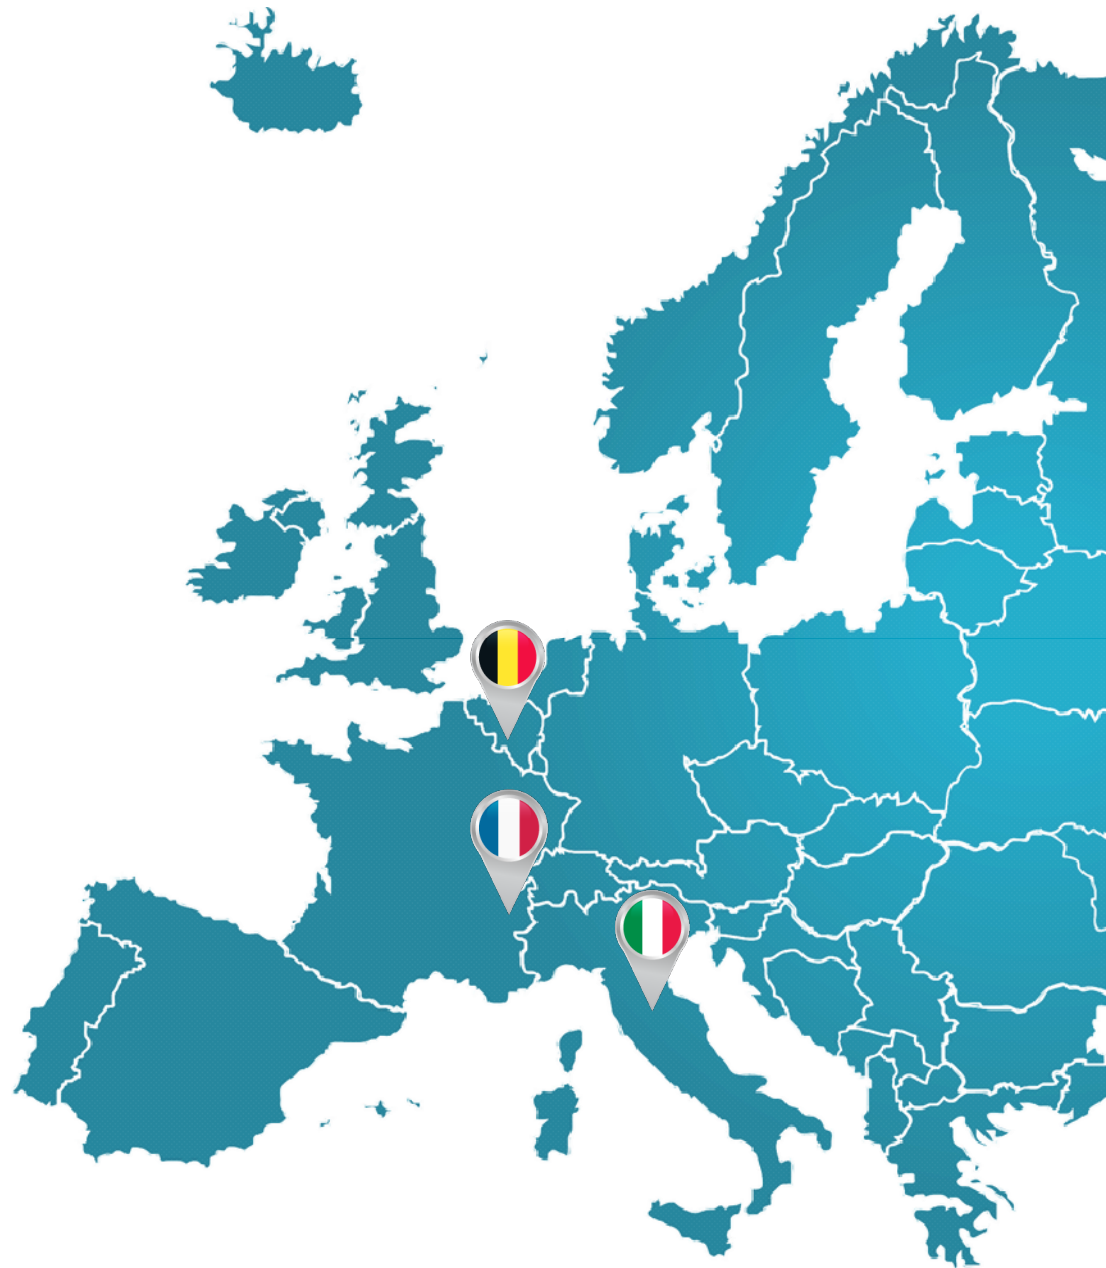

Overview of the project and main outputs

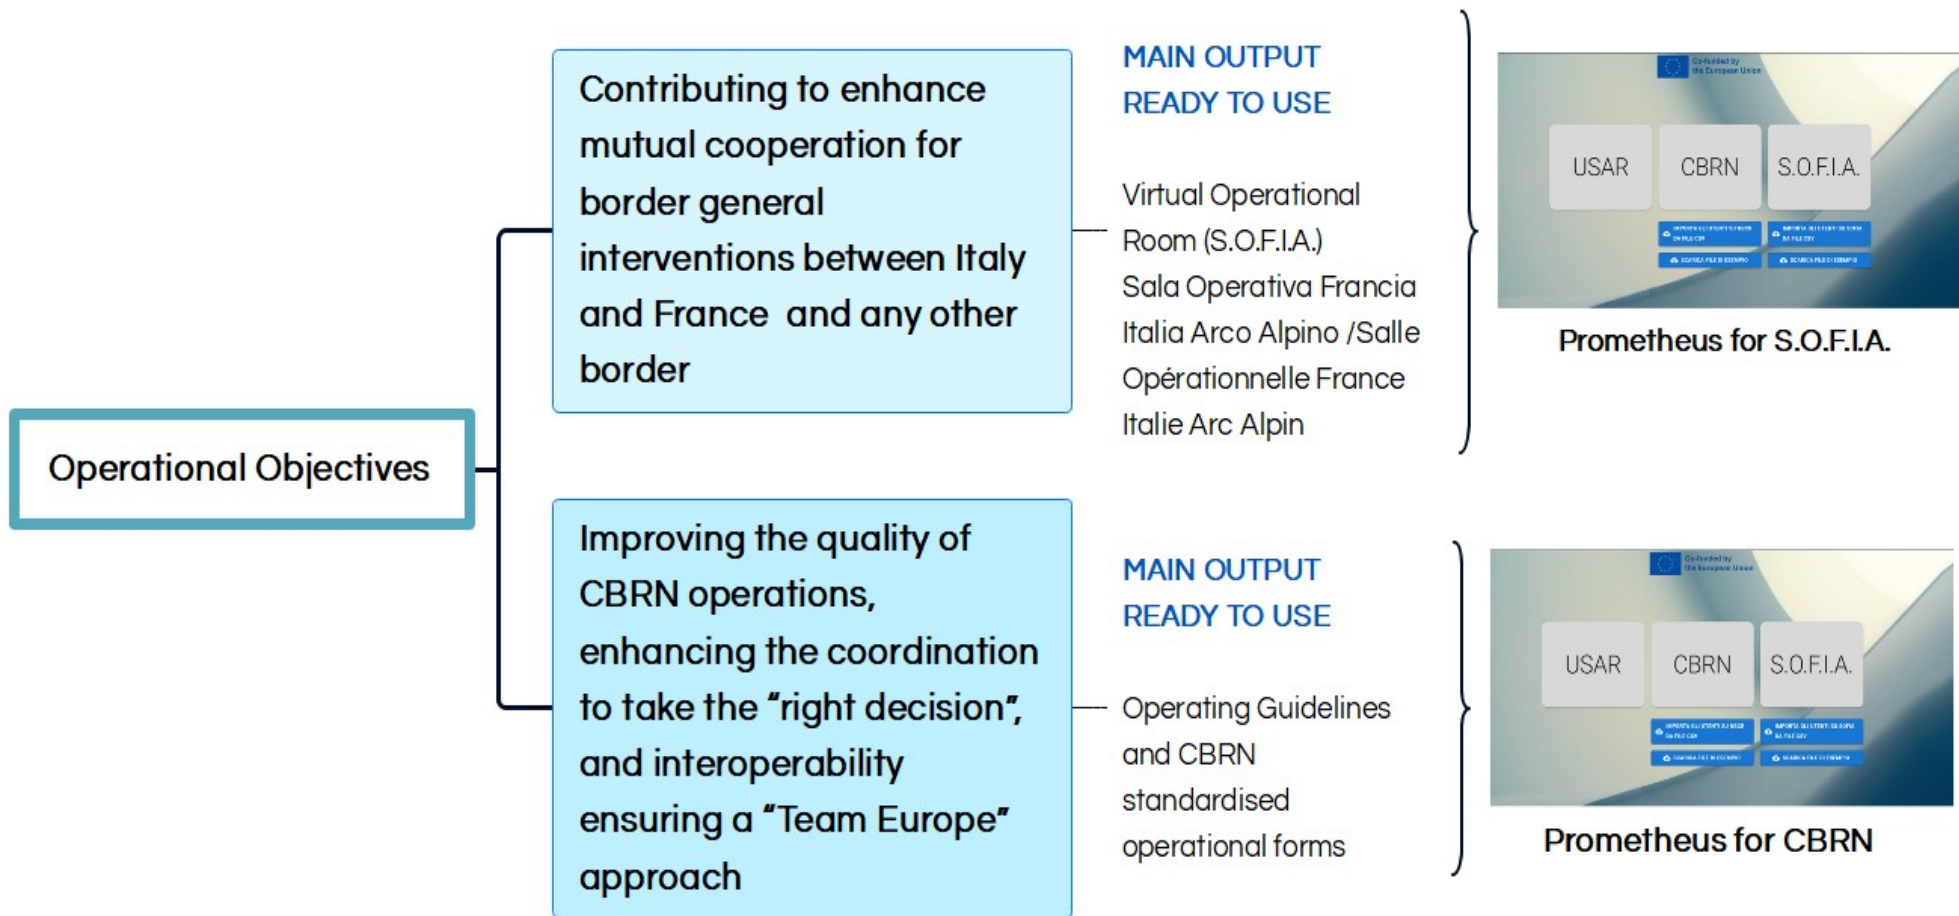

Final Conference on line, 18th March 2025

CBRN Experts are invited from supporting bodies or from CBRN modules registered (Slovenia, Czech Republic, Spain, Austria, Portugal and CTIF)

Prometheus -
Data
Management
System -
for CBRN and
S.O.F.I.A.

"Prometheus" available since 2021 for USAR scenario, is freely downloadable

"Prometheus" is in the 6 UN languages: Arabic, Chinese, French, English, Spanish, Russian), plus Italian

Co-funded by DG ECHO, EC, UCPM Call 2019 PP - AG Prometheus Project, no. 874380

The value of OVERC.O.M.E.

It addresses specific
needs of fire-fighters

It enhances actual
tools and know-how

It was designed by
end-users for **end-
users**

The outputs are **available**
for anyone to be
customised and free of
charge at the end of the
project

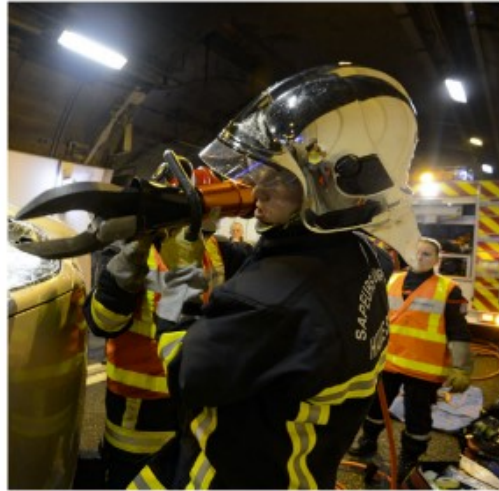

Lacks: at the border

Starting point

**Inter-State Protocols between
Italy and France of
interventions (i.e. at the
tunnels)**

**Proximity of the two main Fire
Departments of Turin (IT) and
Chambéry (FR)**

**Lack of a common
exchange system for joint
intervention**

Lack of shared operational guidelines

**Lack of
common
definitions**

APS

en	Fire Truck
fr	FPT/CCR
it	APS

It addresses specific
needs of fire-fighters:
at the border

- Overcoming language barriers
- Reducing time
- Right resource to dispatch

Collecting
information for
the "right decision"

Clarity in the
command
structure

Improving
teams'
management

OUTPUTS

**Virtual Operational Room
(S.O.F.I.A.)**

Sala Operativa Francia Italia Arco
Alpino Salle Opérationnelle France
Italie Arc Alpin
Operating Guidelines

Lacks: for CBRN

Lack of standard operational forms and of a data management system to support coordination of a CBRN event

CBRN MODEX
Lyon (FR),
February - March
2023

DECISIONS

COMMISSION IMPLEMENTING DECISION

of 16 October 2014

laying down rules for the implementation of Decision No 1313/2013/EU of the European Parliament and of the Council on a Union Civil Protection Mechanism and repealing Commission Decisions 2004/277/EC, Euratom and 2007/606/EC, Euratom

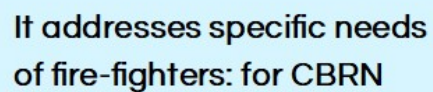

(notified under document C(2014) 7489)

(Text with EEA relevance)

(2014/762/EU)

“to enhance the interoperability of modules, measures are needed at Union and Member States levels”

- (4) In order to ensure operational effectiveness, minimum requirements should be defined for the modules, other response capacities and experts identified in accordance with Article 9(1) of Decision No 1313/2013/EU, as well as for their operational requirements, functioning, and interoperability, as provided for in Article 9(2) of Decision No 1313/2013/EU. In particular, modules should be capable of working self-sufficiently for a given period of time, be quick to deploy, and interoperable. In order to enhance the interoperability of modules, measures are needed at Union and Member State levels.
- (5) The capacity goals for the European Emergency Response Capacity (EERC) should be defined and regularly reviewed in order to have a sufficient number of all necessary types of modules, other response capacities, and experts available for deployments under the Union Mechanism. The quality and interoperability requirements should be defined and regularly reviewed to ensure a uniform minimum level of quality and interoperability of all capacities participating in the EERC.

INSARAG GUIDELINES 2025 USAR FORMS
form France, Poland, Indonesia, Sweden

OUTPUT

STANDARD FORMS for CBRN INTERVENTIONS

Data collection from the affected zone and a digital support facilitates coordination, decision making and general management of a CBRN emergency

OVERC.O.M.E. in a nutshell

The main outputs:

- Operating Guidelines
- International Outline
- CBRN forms
- S.O.F.I.A.

OPERATING GUIDELINES
TO IMPROVE COORDINATION AND COOPERATION

INTERNATIONAL OUTLINE
of the
OPERATING GUIDELINES
to Improve Coordination and Cooperation

Prometheus System

User Manual

User manual for the use of the Prometheus emergency management system U.S.A.R. – C.B.R.N cross-border operation room S.O.F.I.A.

Comando V.V.F. di Pisa, Viale delle Piagge, 1 - 56124 Pisa, Italy
e-mail: infovercome@vigilfuoco.it - ph: +39 050 941942

Training Sessions for French and
for Italian fire-fighters aimed at
learning about S.O.F.I.A. and
CBRN have been delivered

Pisa, Italy
#1942

Target group

fire-fighters of Italy and France involved directly in cross-border operations from the Departments 04, 73, 74, 75 as well as 62 and their Prefectures;

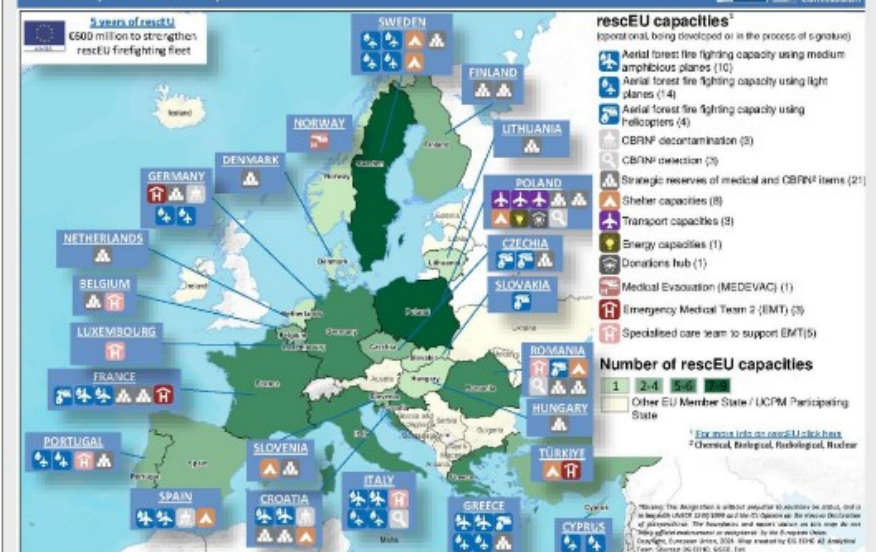

All the border countries and border regions

NEXT STEPS....

The Regional Directorate of Italian Fire Fighters for Piedmont Region is available to facilitate any possible information session with Fire Departments of the Region

Emergency Response Coordination Centre (ERCC) – DG ECHO Daily Map | 05/06/2024
rescEU capacities 2024 update

EU CP Modules of CBRN

Other UCPM countries and, through dissemination by CP Authorities, also PPRD East and PPRD South countries

OVERC.O.M.E.
Funds and
duration

Total estimated eligible cost:	€858.140,20
EU Co-funding (85%):	€729.417,44
Number of months	25
Start date	1st March 2023
End date	31st March 2025

THANK YOU!
